

ORBINOX (UK) LTD ENVIRONMENTAL POLICY

Orbinox UK Ltd recognises the need for global environmental conservation and is committed to minimising the impact of its activities upon the environment.

Orbinox UK Ltd has formulated the following key points in its strategy to achieve this:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling within the company, and ensure the company's environmental policy is made publicly available via the company website.
- Measure the company's energy usage and its consequential impact on the environment, and implement recommendations in a cost effective manner to reduce this.
- Meet or exceed environmental legislation relevant to the company.
